

Nitrogen seed coating for ProNitro™ overseeding mixtures. Offers significantly stronger & faster establishment.

Nitrogen seed coating for ProNitro™ overseeding mixtures Offers significantly stronger and faster establishment.

ProNitro™ is coated directly on to the seed to give the germinating and developing seedling the full benefit of the additional nutrition. The roots and shoots grow rapidly, developing strong seedlings that show at least 30% more vigorous growth. These are useful development traits for overseeding into a competitive sward.

ProNitro™ 2.5, ProNitro™ 15 and ProNitro™ 20

- Oversow at 12kg/acre, 30kg/ha
- Feeds the seed and not the surrounding grass giving up to 34% more viable plants
- Strong establishment with around three times as many stronger plants and green matter
- Increases yield potential and subsequent livestock output
- Targeted nitrogen application can reduce losses to the environment by up to 50%

Overseeding

DLF ProNitro® Overseeding 6-8 years

FEATURES

Offers significantly stronger and faster establishment ProNitro® unique formulation delivers stronger establishment with up to 34% more plants and a 30% increase in root length, resulting in a healthier sward and less weed invasion. ProNitro® treated seeds contain 15% N in a combination of both fast acting and slow release nitrogen encapsulated within a smooth outer coating for improved seed flow.

The roots and shoots grow rapidly, developing strong seedlings that show at least 30% more vigorous growth. These are useful developmental traits for overseeding into a competitive sward.

35%	Solas(T)	Late Perennial Ryegrass
60%	Aspect (T)	Late Perennial Ryegrass
5%	Dual Purpose	White Clover Blend

A unique solution ProNitro® focuses on improving nutrient utilisation during the early stages of plant growth. ProNitro® mixtures contain high quality seed, only cultivars with superior performance characteristics and seed lots with high vigour are selected for coating.

PRONITRO® is coated directly on to the seed to give the germinating and developing seedling the full benefit of the additional nutrition.

Available in 12kg packs
